- Honour Roll (2021, 2022)

## EXPERIENCE

### Student Intern

Oct. 2022 – Present

Toronto Catholic District School Board | Co-op

Toronto, ON

- Designed promotional material for board-wide events, including posters, videos, and animations
- Analyzed data regarding student involvement and participation in 31 high schools across Toronto
- Created PowerPoint slideshows to be used during presentations at Catholic Student Leadership events

### After School Program Leader

Sep. 2022 – Present

Boys and Girls Clubs of Canada | Contract Part-time

Toronto, ON

- Ensured safe transportation of program participants from schools to community centre
- Planned and executed scheduled activities throughout the program
- Assisted participants when in need of help for homework, facilitating a healthy environment for learning

### Summer Camp Counselor

Jun. 2022 – Aug. 2022

Toronto Catholic District School Board | Contract Full-time

Toronto, ON

- Effectively communicated with peers in order to ensure a safe and organised environment
- Coordinated activities for children between the ages of 3 and 13
- Engaged with parents to confirm that their child(ren)'s needs were being met

## EXTRACURRICULARS

### Model United Nations Club (President)

Sep. 2022 – Present

- Facilitated training of all club members in preparation for conferences
- Organized school delegations to several conferences for the first time in club history
- Secured club funding, making conferences accessible to more students

### Hacking Club (Team Member)

Sep. 2020 – Present

- Participated in Capture the Flag (CTF) events including PicoCTF 2021, 2022, and 2023
- Utilized various security technologies including Wireshark, Ghidra, Cyberchef, Metasploit, John the Ripper, Steghide, & Burp Suite

## PROJECTS

### STEM Fellowship Big Data Challenge | Python, Matplotlib, Pandas, Scikit-learn

Nov. 2021 – Feb. 2022

- Analyzed the correlation between economic factors such as GDP, Human Development Index scores (HDI) against how much of a country's energy comes from emission-free and renewable sources
- Utilized Pandas to import and parse large datasets, observed patterns using Scikit-learn's regression functions, then visualized interesting findings through Matplotlib & Geopandas (world maps, scatter plots, line graphs)
